[1] The Calisto 830 and 835 connect to PC/Mac + mobile phone + home landline.
[2] Wireless microphone available as an accessory for the Calisto 820 and 830.
[3] Add desk phone connectivity when used with MDA200.
[4] Wireless frequency: Bluetooth v3.0 + EDR.

MDA200™

Belonging to our UC Enabler category, the MDA200 headset communication hub allows a corded or wireless USB headset to connect to and switch between calls from both PC and desk phone. (83757-02)

Technology legend

A2DP A Bluetooth® profile that allows high quality audio content to be streamed from one device to another. Listen to streaming media, music and navigation through your headset.

Adaptive Power Automatically downshifts to low power when the wireless headset is close to the base to save battery life and maximize density.

Dynamic EQ Optimises voice quality on calls and automatically adjusts EQ settings when listening to music or for multi-media playback.

Hi-fi Stereo Full-range dual channel audio playback capable of frequencies from 20 to over 20,000Hz.

Smart Sensor™ Technology Built-in sensors deliver automatic functionality like answering a call by placing the headset on and automatically transferring calls between mobile phone and headset.

SoundGuard® Acoustic limiting for protection against sounds above 118 dBA.

SoundGuard DIGITAL™ All the benefits of SoundGuard, plus anti-startle protection which detects sudden increase in sound and eliminates the increase, and Time Weighted Average (TWA) measurement which prevents average daily sound exposure from exceeding 85 dBA.

Wideband Frequency range up to 6,800 Hz. Meets TIA-920 standard for genuine wideband response.
